RILLEAD'S GROCERS.

Weenah and Menasha, Wis., P
Are situated on the Wisconsin Central
Lines, at the foot of Lake Winnelsto,
and like other towns on or near this
sheet of water, are very important
manufacturing centers. The general
government recognising the value of
the location for manufacturing purposes built extensive dams, the lake
lorming a water head of unfailing
capacity, hence there is furnished a
water power practically unlimited in
its capacity. The famous Menashs
water power is the first of the great
hydraulic powers, and is made by a
ten-foot fall of the river between lakes
Winnebago and Buttes des Blories.
The water is carried along two canais,
no nearly a mile in length and the
other one 1700 feet long, which run
parallel with the river. On their banks
are located the many prosperous mahufacturing establishments, including ave
large paper mills, flour mills, sayes
works and others too numerous to
mention. The Wisconsin Central Lines
is the direct route from Chicago and
Alilwaukee, affording unequalled service.
